

SECRET/NOFORN

PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: S2 TNG	SESSION NUMBER: 1
DATE OF SESSION: 880817	DATE OF REPORT: 880817
START: 0855	END: 0910
METHODOLOGY: CRV	VIEWER IDENTIFIER: 32

1. (S/NF/SK) MISSION: Access and describe in a stage two sense training target #23 James River Paper and Pulp Mill, Berlin, NH.
2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 4428/7172.
3. (S/NF/SK) COMMENTS: Excellent session. 032 experienced all sensory perceptions and dimensionals. Only problem experienced was that 032 did not objectify visuals as they occurred. These are shown in the attached sketch which was drawn after feedback was provided. Dangers of editing were discussed, with 032's quick understanding of and incorporation of corrections it is doubtful that this will be a problem in the future. 032 had a variety of physical inclemencies (arm sore, etc.).
4. (S/NF/SK) EVALUATION: 3.

17 Aug 88

Session monitored via index.

*Page 5 reflects Bilocation c e,
Viewer here and at the sight.*

*Such occurrence will be used
to great advantage in ERV - for now
structure must be maintained*

orth country, James River Corporation pulp and paper mills in
am and enough sulfides to coin the local adage, "Want to find
low your nose." High stacks help disperse odors as part of a
or outcry for pollution abatement. Complaints are few: The mills

directly and indirectly provide 2,300 jobs in the depressed north. Midstream in the
Androscoggin River, man-made islets, foreground, channeled log drives in the flush
days of virgin forests, when cutters denuded many of the state's mountainsides.
Today, however, renewed forestlands cover a remarkable 86 percent of the state.
